Annex 3

Progression of Attainability percentage to achieve 4 DTT multiplexes or more within the band 470 – 694 MHz band at various Iterations

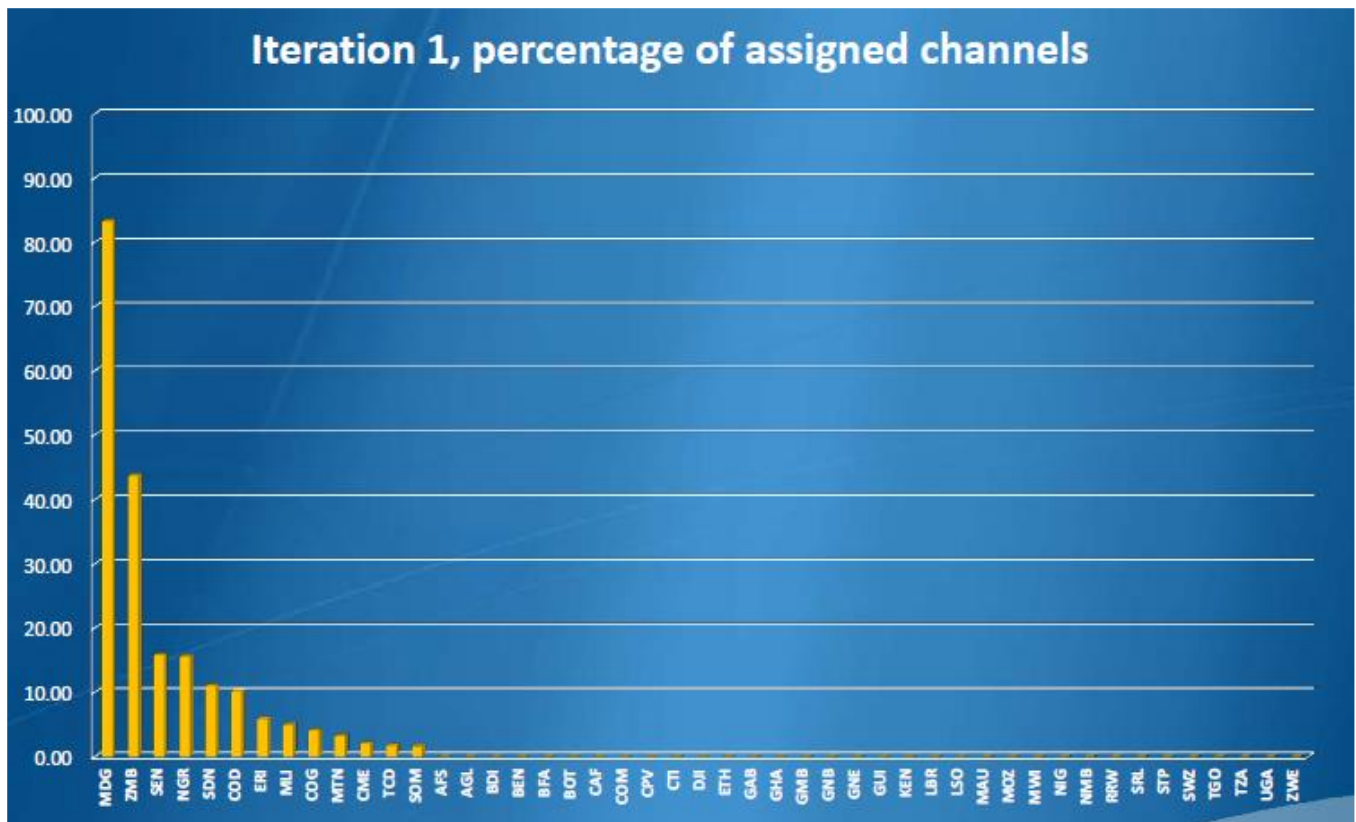

Figure 1: Iteration 1 - Attainability percentage to achieve 4 DTT multiplexes or more within the band 470–694 MHz band

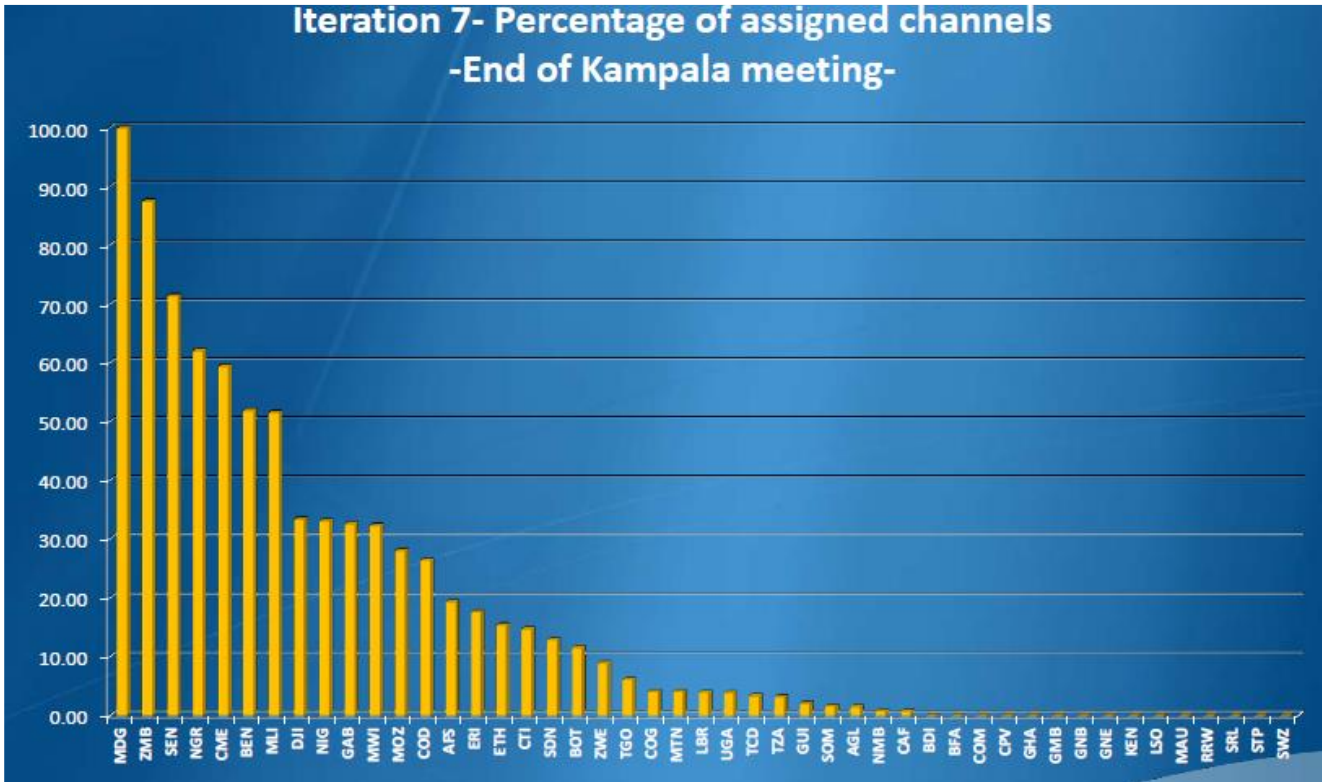

Figure 2: Iteration 7 - Attainability percentage to achieve 4 DTT multiplexes or more within the band 470–694 MHz band

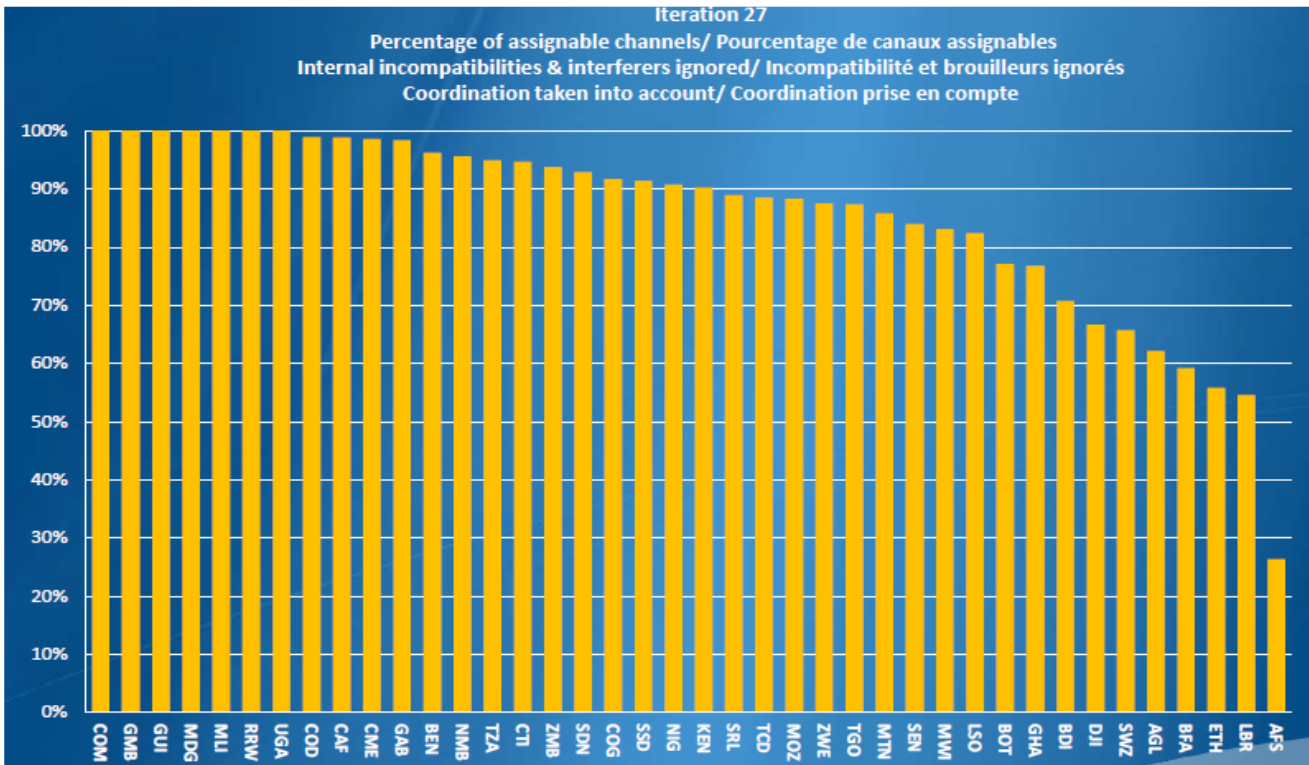

Figure 3: Iteration 27 - Attainability percentage to achieve 4 DTT multiplexes or more within the band 470–694 MHz band

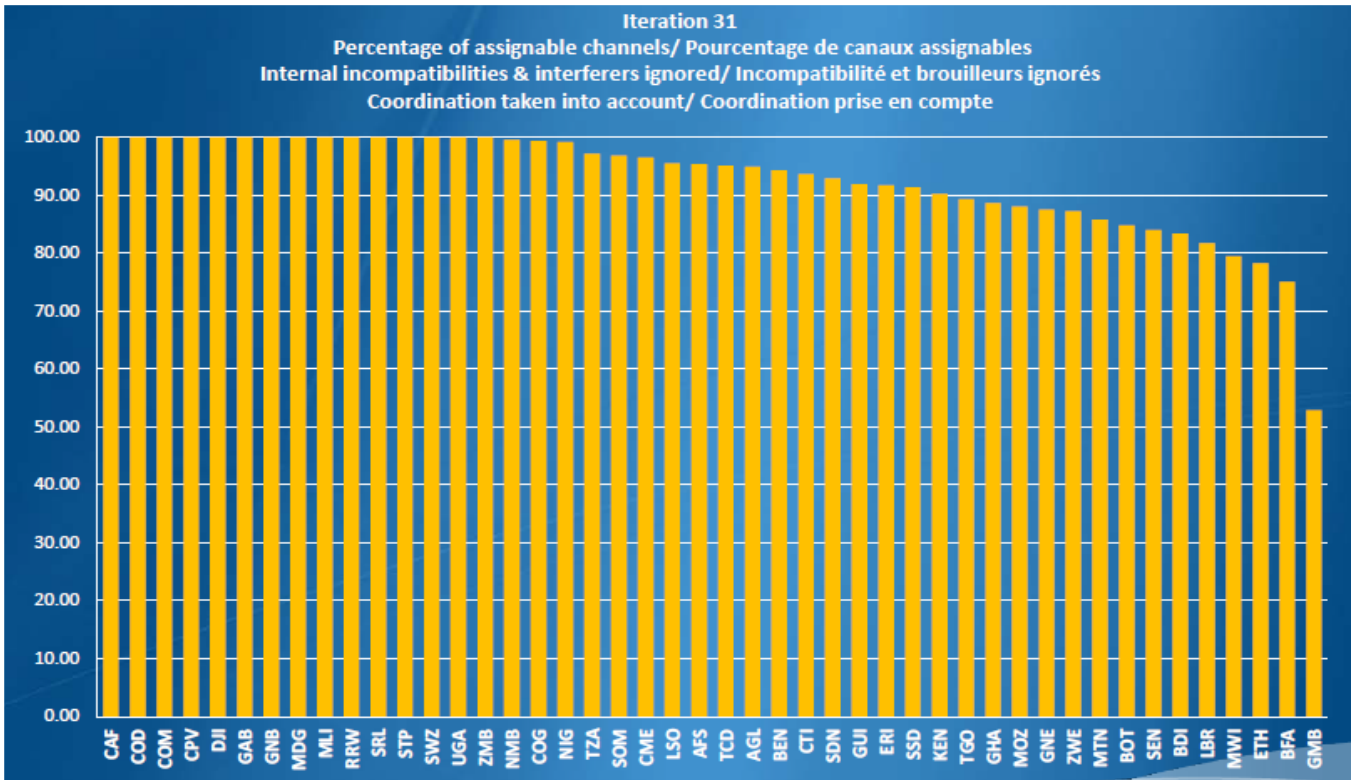

Figure 4: Iteration 31 - Attainability percentage to achieve 4 DTT multiplexes or more within the band 470–694 MHz band

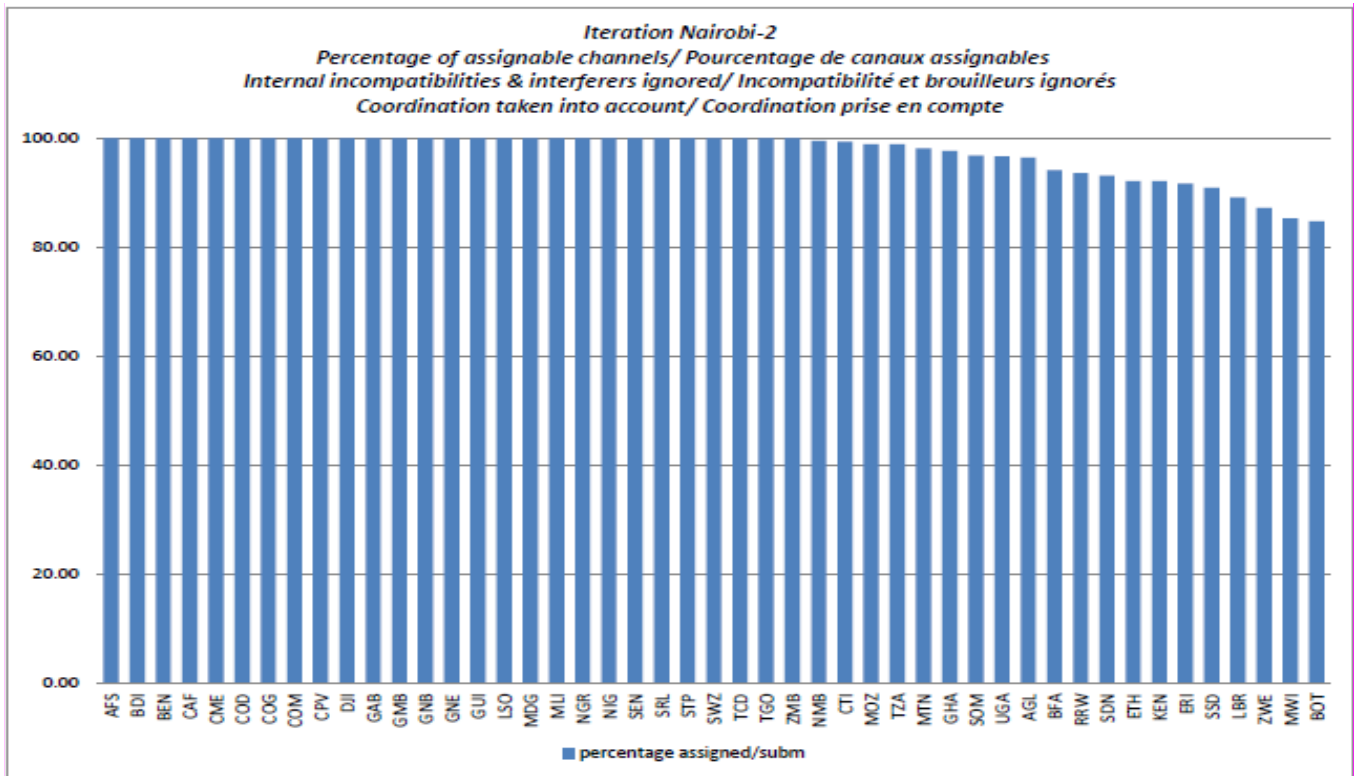

Figure 5: Iteration Final - Attainability percentage to achieve 4 DTT multiplexes or more within the band 470–694 MHz band
